

clearglas /ultraclear

Clear glass is a fundamental glass product that offers excellent light transmission with perfect reflection properties, without the characteristic green tint. With light transmission rates of 75–92% (depending on glass thickness), this versatile material serves as the foundation for various glass products, including tempered safety glass, laminated safety glass, insulated glass, and coated glass products.

Ultra Clear Glass (Low-iron Glass) Premium glass manufactured through a specialized process that reduces Iron Oxide content in raw materials, resulting in exceptional clarity without the greenish tint commonly found in standard glass. The green tint typically becomes more pronounced as glass thickness increases.

Anti-Reflective Glass Ultra clear glass with specialized anti-reflective coating technology, available in both single-sided and double-sided options. Reduces light reflection by up to 10 times, making it ideal for display cases and photographic applications.

Superior Light Transmission:
Achieves 75-92% light transmission, providing exceptional clarity and perfect reflection without green tinting

Versatile Applications:
Serves as the base material for various glass products including laminated safety glass, heat-insulating glass, and coated glass.

Enhanced Anti-Reflective Properties:
Specifically for ultra clear glass with anti-reflective coating, reducing reflections by up to 10 times, perfect for display and museum.

Product Specifications

<p>Thickness Size</p>	<p>Recommended Size Thickness: Start 4 mm.</p> <ul style="list-style-type: none"> • Clear glass 84 x 120 mm. • Ultra clear 1830 x 2440 mm. <p>Remarks: Although we can accommodate sizes outside the recommended range, please consult with us on a case-by-case basis. Production suitability and material availability, may vary depending on current inventory and specific requirements.</p>
<p>Opacity</p>	<p>Opacity : 0%</p>
<p>Price</p>	<p>Price : Start 6 mm.</p> <ul style="list-style-type: none"> • 28.7.-/sqft (clear glass) • 101.6.-/sqft (ultra clear) <p>Remark: Prices in this catalog are subject to change depending on materials and manufacturing processes. For high volume purchase, please contact us</p>
<p>Interior Exterior Wall Exhibition</p>	<p>Applications: Suitable for both exterior and interior applications including All types of building facades, windows, Interior decorations, residential, office, retail building, showroom. Special applications requiring exceptional glass clarity such as Display cases</p>
<p>Production Lead Time</p>	<p>The standard production lead time is 7 to 10 days. However, this may vary based on material availability, the complexity of the processing required, and other actors that could impact the lead time.</p>
