Glass Printing Technology

Looking to print patterns on glass? You've come to the right place. At TYK, we specialize in turning your design concepts into stunning glass patterns using our advanced printing technology. Our skilled graphic team is here to assist you with modifying or creating designs tailored to your needs, even if you don't have a file ready. Let us help bring your vision to life.

Specialized Graphic Team:

At TYK, our dedicated graphic design team excels in creating custom designs on glass. With extensive experience and a deep understanding of design limits, they can recommend the best printing approach to achieve your vision.

Advanced Printing Technology:

We utilize the best printing technologies to ensure your products meet the highest quality standards.

Versatile Customization:

Our process can be integrated with other techniques, offering designers flexible options to achieve both aesthetic and functional goals. Whether for exterior or interior applications, we can select the ideal printing technology to meet your needs.

zumi

Inspired by the timeless elegance of textile patterns, Zumi transforms fabric's delicate charm into a perfect fusion of art and function. This printed glass captures the intricate refinement of fine fabrics through advanced production techniques, offering a textured surface with rich depth and dimension – as if woven from real threads. Zumi brings a distinctive touch of design sophistication to every space.
