

wireglas

Wire glass is an innovative reinforced glass featuring embedded wire mesh that enhances its thermal resistance and safety properties. This specialized glass helps prevent fire spread while reducing the risk of glass shards during breakage. It's particularly well-suited for Loft & Industrial style interior decoration.

Superior Break Resistance:

Exceptional strength enhancement-even when cracked, glass fragments remain secured to the wire mesh, significantly reducing injury risks from broken glass

Fire Protection Properties:

High heat resistance makes it an ideal choice for areas requiring enhanced safety measures, such as fire escapes or partition walls

Distinctive Aesthetic Appeal:

The unique wire pattern creates a distinctive look that's perfect for various design applications, especially in Loft & Industrial style décor, adding character and dimension to any space
